ELECTED OFFICALS REPORT:

- A. FISCAL OFFICER – Amy L. Dawson, Fiscal Officer
TREASURER'S REPORT – As of August 31st, the Treasury Balance for 20 active funds was \$5.4 million which includes \$823,000 in funds set aside for specific projects.
- B. TRUSTEES:
Mr. Malchesky – The Painesville City water line project on Auburn Rd is completed. He would like to schedule a meeting with Lake County regarding the water line breaks and stormwater issues.

Mr. Galloway – no report.

Mrs. Luhta – no report.

DEPARTMENT REPORTS:

- A. ADMINISTRATION DEPT. – Kathy Mitchell, Administrator
 - Shredding Day is this Saturday, September 9th from 10-12.
 - A press release from Lake County Engineer's office regarding a multi-road resurfacing project on Auburn Rd., Morley Rd. and Prouty Rd.
- B. FIRE DEPT. – Chief Sabo
 - **Activities Report for August** – 213 Runs for August: 4 MVAs, 20 Agency Assists, 11 Fire Alarms, 6 Wire Downs, 38 Basic Rescues, 82 Advance/Paramedic, 21 Public Assist, 0 Structure Fires; **Fire Prevention Bureau** – 8 Plan Reviews, 18 Annual Inspections, 28 Follow-up, 1 Special Event (Community Day), 27 Fire Protection System Testing; **Public Education** – 2 Knox Box, 2 PR Events, 1 Safety Plan training (Vista Springs)
 - **Safety Tip:** Smoke detectors save Lives. Thanks to a grant from The Firehouse Subs Safety Foundation, a limited number of dual-sensor smoke alarms are available at no cost. Email or call us to arrange to have our firefighters install smoke alarms in your home.
- C. SERVICE DEPT. – Frank Kraska, Service Director
 - Service crews completed the last section of concrete road replacement within Kellogg Park Estates Subdivision.
 - Bradley Court, Colleen Drive and Cheryl Drive benefited in over 1,000 yards of road improvement this season.
 - Comparable repairs will be started in Carriage Hills Subdivision on Conestoga Trail Cul de sac.
 - A request for the Trustees to accept road improvement bids received on August 29th for road reconstruction repair on Gallant Way in Quail Hollow Subdivision.
 - Rebuilding the Cul de sacs on Gallant Way and Conestoga Trail eliminates two of our higher priority road repairs.
 - Update on our asphalt paving program: Little Mountain Country Club Subdivision, Hobby Horse Development, Lambton Court, and Tanglewood Trail are all resurfaced, except for a 500-foot section on Augusta Lane which was determined to need full depth reconstruction. Township crews completed the work within one week and Karvo Paving Company will return to complete the topcoat on that section as well as berming, sealing and final maintenance cleanup tasks.
 - Residents are able to drop off their brush and yard waste this year on Saturday September 23rd from 8-12. Yard waste will be accepted in biodegradable bags or containers easily dumped. Personnel will be on hand to assist residents in off-loading materials at our service garage. The chipped brush will be available to residents on a first come first serve basis during regular business hours, Monday - Friday.

RESOLUTION NO. 2017-27

A RESOLUTION ENSURING ADEQUATE DIGITAL RADIO COVERAGE AVAILABLE IN NON-RESIDENTIAL BUILDINGS FOR EMERGENCY RESPONDERS AND TO REPEAL RESOLUTION 2003-04 AS IN CONFLICT THEREWITH.

WHEREAS, the Township of Concord seeks to ensure that adequate digital radio coverage is available, but not limited to, firefighters, police officers, and other emergency response service providers, who serve to ensure the health, safety and welfare of business owners, their employees and visitors, and

WHEREAS, this resolution applies only to non-residential buildings of more than 5000 square feet, and

WHEREAS, except as otherwise noted, no person or entity shall erect a new building, construct an addition that adds more than 20% square feet of space, or the use of any building, structure or any part thereof that fails to support adequate radio coverage for the Lake County Digital Radio Communications System.

NOW, THEREFORE BE IT RESOLVED that we, the Trustees of Concord Township, hereby adopt the following guidelines for digital radio coverage that shall increase the effectiveness of Township safety forces:

SECTION I: GENERAL

Adequate radio coverage shall be defined as and include all of the following:

A minimum signal strength of -95 dBm available in 95% of the area of each floor of the building, or as otherwise required by the Ohio Fire Code, when transmitted from the closest Lake County Digital Radio Communications System site;

- a. A minimum signal strength of -100 dBm received from 95% of the area of each building floor transmitted via a Motorola APX6000 portable radio or equivalent, or as otherwise required by the Ohio Fire Code, to the closest Lake County Digital Radio Communications System (LCDRCS) site authority having jurisdiction;
- b. The radio frequency range shall be supported at 768-775/778-805 MHz and 806-815/851-860 MHz;
- c. The bi-directional amplifier shall have a performance reliability of not less than 98% based on input signal strength adequate to obtain a continuous maximum operating output level.

SECTION II: ALLOWABLE AMPLIFICATION SYSTEMS

Buildings and structures that cannot support the required level of radio coverage shall be equipped as needed with either a radiating cable system, or an internal multiple antenna system with or without FCC-accepted bi-directional 800 MHz amplifiers. If any part of the installed system or systems contains an electrically powered component, the system shall be capable of operating on an independent battery and/or generator system for a period of at least twelve (12) hours without external power input. The battery system shall automatically charge in the presence of an external power input. If used, bi-directional amplifiers shall include filters to reduce adjacent frequency interference at least 35 dB below the NPSPAC band. The filters shall be tuned to 806 MHz and to 870 MHz, so they will be 35 dB below the NPSPAC frequencies of 824 MHz and 869 MHz respectively. Other settings may be used, provided they do not attenuate the NPSPAC frequencies, and further provided they are not more than one (1) MHz from the NPSPAC frequencies.

SECTION III: ACCEPTANCE TEST PROCEDURES

When an in-building radio system is required and installation of same is completed, it shall be the building owner's responsibility to request testing of the radio system to ensure that two-way coverage on each floor of the building meets the requirements of the rules listed above.

All tests shall be conducted and documented by a Motorola Certified Technician, or equivalent, and the building owner shall retain all test records on the inspected premise and a copy submitted to the Fire Department officials.

Tests shall be conducted using a Motorola APX6000 portable radio, or equivalent, communicating through the Lake County Digital Radio Communications System (LCDRCS) specified by the authority having jurisdiction. Testing shall be conducted by dividing each floor of the building into a grid of approximately twenty (20) equal parts. A location in the approximate center of a grid area will be selected for the test (once selected, this location within each grid area shall be the only one used for test).

In the next part of the test the radio shall be keyed in an attempt to verify two-way communications through the LCDRCS. A maximum of two (2) nonadjacent grid areas shall be allowed to fail the test. In the event that three (3) nonadjacent grid areas fail the floor may be divided into forty (40) equal areas, where a maximum of four (4) nonadjacent grid areas shall be allowed to fail the test. If the system fails at this point, the building owner shall have the system corrected to meet the 95% coverage requirement.

The gain values of all amplifiers shall be measured and the test measurement results shall be kept on file with the building owner. These measurements shall serve as a baseline and verified at the time of each annual test. In the event the measurement results are unavailable for any reason, the building owner shall be required to rerun the acceptance test to reestablish the gain values.

SECTION IV: ANNUAL TESTING PROCEDURES

When a radio system is required, the building owner shall submit annually to a performance test of all active components of the system, including but not limited to amplifiers, power supplies and backup batteries.

Amplifiers shall be required to have the same gain as that registered at initial system installation and acceptance.

Backup batteries and power supplies shall be tested under load for a period of one (1) hour to verify they will operate properly during an actual power outage. If the battery exhibits symptoms of failure, the test shall be extended for additional one (1) hour periods until the testing technician confirms the integrity of the battery.

All other active components shall be checked to determine whether they are operating within the manufacturer's specifications for the intended purpose.

SECTION V: FIVE-YEAR TESTING PROCEDURES

When an in-building radio system is required, the building owner shall agree to the performance of a radio coverage test a minimum of once every five (5) years to ensure that the system continues to meet the requirements of the original acceptance test. The procedure outlined above shall apply to such tests.

SECTION VI: FIELD TESTING PROCEDURES

Police and fire personnel, after providing reasonable notice to the property owner or his/her representative, shall have the right to enter onto the property to conduct field testing to ensure radio coverage is within stated guidelines.

BE IT FURTHER RESOLVED that Resolution No. 2003-04, previously passed by the Board of Trustees, is hereby repealed in its entirety as in conflict herewith.
