DEPARTMENT REPORTS:

A. ADMINISTRATION DEPT. – Andy Rose, Administrator

- Good evening. I want to take a few minutes to update you on the Fire Station project. We recently had a conference call with the architect and we discussed getting the cost estimate on the redesign as quickly as possible. We should have it this week. We also requested a separate quote in order to conduct a geo analysis on the soccer field site. The Fire Chief and I, along with Trustee McIntosh, have toured several area stations. Financing options continue to be explored in close coordination with our Fiscal Officer. I think it would be best to conduct a series of stakeholder meetings. These meetings can be used to inform all citizens on the fire station project and after the presentation, we can break out into several distinct groups i.e. architecture and building design, fire operations, and finance. Citizens will have the ability to discuss particular aspects that are focused on their area of interest. We will have follow up meetings in order to review comments and questions fielded and provide answers. This method allows ALL interested citizens the ability to participate. I recommend we conduct two meetings, one during the day and one in the evening.
- On the agenda this evening are several personnel items requiring your vote. I recommend approval on all four of them. Two for the Service Department and two for the Fire Department.
- Finally, I will be out of town starting tomorrow afternoon for the remainder of the week attending the Ohio Township Association's annual conference in Columbus. I'll be available by phone and email should you need anything.
